

# Medieval Hotel Research Project

*Due: Thursday, March 13, 2008*

We are creating a gallery of Explorers, and people associated with the Scientific Revolution and the Age of Enlightenment. Each student will create a poster detailing the life of his/her famous person.

Your famous person is: *Ask your child*

Your poster should include information in the following categories:

- Biographical (When were they born? When did they die? Children? Family? Where did they live?)
- Why were they famous? What did they do, discover, or accomplish? (Remember to give information about their life's work)
- A picture of your person, and a map or other supporting pictures
- A title (The name of your person)
- Your name

Your poster should be:

- Neat
- Typed if possible, or nicely written (computers are available before and after school or at the public library)
- Attractive, nicely decorated, colorful
- Edited, detailed, well-researched and thoughtful writing
- Your best work

When I score it, I will ask myself the following questions:

- Is your writing organized and thoughtful?
- Does your writing give information and reflect your research?
- Is your writing your best, edited, thoughtful, and clear?
- Is your project neat, organized, and attractively decorated?
- Did you follow the project directions?
- Does your project show your effort and hard work?

Notes:

- I am always available before school to help with materials, research, design, or just a quiet place to work. If you prefer to come after school, please let me know in advance.
- Please remember to put things into your own words, or use quotation marks.
